WORK EXPERIENCE

Data Scientist/ AI Engineer Intern

On-site Internship – Summer 2026

Attijariwafa bank – Headquarters (Moulay Youssef), Casablanca, Morocco

Developed an **AI-powered** banking complaint processing system, leveraging **Llama 3**, **LangGraph**, **RAG**, and **MCP** to extract key information, assess dissatisfaction levels, determine complaint priority, and trigger automated alerts for urgent cases. Implemented **PII detection and masking** to ensure strict data security and compliance throughout the pipeline.

Data Analyst Intern

On-site Internship – Summer 2025

Autoroutes du Maroc – Headquarters, Rabat, Morocco

Predictive traffic analysis using large-scale historical traffic data (2022–2024) to analyze congestion patterns. Modeled star schemas, written **DAX measures**, and designed interactive **Power BI** dashboards with advanced data visualizations to support strategic decision-making, while ensuring strict data confidentiality throughout.

EDUCATION

Master’s Student in Artificial Intelligence 2026 – 2027
École Centrale de Lyon (ECL) Lyon, France

General Engineering Student – Major in Computer Science 2026 – 2027
École Centrale de Lyon (ECL) Lyon, France

Software & Intelligent Systems Engineering Student 2022 – 2026
École Nationale Supérieure d’Arts et Métiers (ENSAM) Meknes, Morocco

High School Diploma (Baccalaureate) in Mathematical Sciences A 2021 – 2022
High School of Excellence Mohammed VI Benguerir, Morocco

TECHNICAL SKILLS

AI & Generative AI: Python, LLMs, Transformers, LangChain, LangGraph, RAG, MCP, Prompt Engineering, Agentic AI, Hugging Face, Fine-tuning, TensorFlow, PyTorch, CNNs, RNNs, OpenCV

Data Science: SQL, NoSQL, Pandas, NumPy, scikit-learn, FastAPI, Streamlit, Power BI

Software Engineering & Cloud: React, Spring Boot, Java, C++, Docker

Security & Compliance: Data Protection, Access Control, Encryption, Authentication/Authorization

Observability & DevOps: Prometheus, Grafana, CI/CD, Git, Linux

Project Management: Agile, Scrum, Jira

LANGUAGES

French: **Written & Spoken**

English: **Written & Spoken**

Arabic: **Native**

CERTIFICATIONS

Linux Essentials

Linux Professional Institute
May 2026

ACTIVITIES

- Active Member, **Gadz’it** Computer Science Club (ENSAM).
- Active Member, Social Club (ENSAM).
- Participant, **Ramadan AI 2026** (Ministry of Digital Transition).

SOFT SKILLS:

Collaborative - Autonomous - Analytical and Critical Thinking - problem-solving

PROJECTS

Emotion Detection System

ENSAM Meknes – 2026

- Real-time facial emotion recognition system (joy, anger, surprise, etc.) built with **Convolutional Neural Networks (CNN)** using PyTorch/TensorFlow and OpenCV; trained and evaluated with (FER2013) dataset.

eGrading – Academic Assessment Platform

ENSAM Meknes – 2025

- Web platform built with **Spring Boot, React, and MySQL** to digitize exam grading at ENSAM; deployed to production and successfully utilized for real academic examinations.
